

HISTORY OF HONOR ON HOWELL MOUNTAIN

OUR ESTATE

As an homage to our first winery, the 15,000 sq. ft. of caves were designed in the shape of the PlumpJack shield. A manzanita tree on the property was the inspiration for the CADE logo, both in shape and color.

BEHIND THE WINES

Winemaker Danielle Cyrot is regarded as one of Napa Valley's most innovative, sustainability-minded winemakers. Her work has helped dismantle the status quo, reframing screw caps as an acceptable closure for high-end wines and defining the next generation of luxury wine packaging.

SUSTAINABILITY

CADE Estate was the first LEED (leadership in energy and environmental design) Gold Certified winery in Napa Valley. It was built with sustainable materials, such as steel made from 98% recycled material and zero wood in the production facility. Our winery and land are Napa Green Certified, and our estate vineyard is organically farmed and accredited CCOF (California Certified Organic Farmers).
