

Booth Cleaning

**ORDER
DEADLINE
18 MAY**

During build up and breakdown every exhibitor is responsible for removal of all waste and refuse from their booths. Booth construction contractors are responsible for leaving individual booths in a clean and tidy condition for exhibitors. It is your responsibility to maintain a clean booth at all times.

We have made arrangements for basic daily booth cleaning to be carried out at no charge to the exhibitor. This will be carried out at the end of the build up period (overnight, before the show opens on the first day) and after the show closes on Tuesday and Wednesday. **This does not apply to the second storey where cleaning has to be ordered at a charge.** The basic booth cleaning will include vacuuming and emptying of waste bins. Additional rubbish should be placed in sealed rubbish bags and should be placed in the aisle by closing time for

overnight collection.

Glass is to be placed in separate bags which should be left open for recycling purposes. Messe

Frankfurt Venue GmbH & Co. KG must be notified in case of toxic waste.

As is usual, the cleaning of exhibits will remain your responsibility, as will any special services that may be required, such as the removal of bulk rubbish. Exhibitors should use, whenever possible, recyclable materials for booth structure and decoration.

Orders for the services listed below can only be accepted until Mon 18 May.

Price plus VAT at the current valid rate. Discounted rates available for booths larger than 100 sqm.
