THE FOUR PILLARS OF JOALI BEING

Centred around the Four Pillars of JOALI BEING – Mind, Skin, Microbiome and Energy, our offerings draw on modern science and time-honoured traditions alike. Our signature Immersion Programmes bring together curated treatments therapies and experiences that reinforce each pillar.

SKIN

Skin is the largest body organ with its own microbiome. By focusing on skin health, we are able to nurture the body, restore natural beauty and reverse ageing. The offerings that nurture the Skin pillar can positively impact many areas of our lives, including self-confidence.

Referred to as the second brain, the gut's Microbiome plays a key role in strengthening the immune system. The skin, too, has its own Microbiome, which acts as a protective barrier and affects how you look and feel. The treatments included in the Microbiome pillar focus on deep cleansing and detoxification, stimulating the lymphatic system, and enhancing immune resistance.

FLORA MOLECULAR SKIN THERAPY

Scalp-care is the secret to haircare

Restoring your scalp's microbiome lays the foundation for healthy, beautiful hair. Discover clean, vegan and innovative scalp-and-hair therapies that transcend the boundaries of traditional haircare.

FLORA treatments are backed by decades of scientific research and professional hairdressing experience. Experience the benefits of breakthrough innovations, formulated to balance your scalp and hair microbiome and boost hair wellbeing.

- FP5 Biome: A proprietary active complex that combines AminoAcids, Micropeptides and Marine Bioactives to enhance the microbiome and stimulate fibroblast cells to produce collagen and elastin.
- FMP10: A proprietary molecular technology blend of Micropeptides and the highest quality short-chain Hyaluronic Acid to improve fibre structure, strength and density. Your indulgent journey activates all five senses, uplifted by FLORA's exclusive fragrances.

Begin with a personalised consultation and diagnosis, followed by a blissful sensorial experience and a scalp-and-hair ritual tailored to your unique needs. Pure active ingredients, scalp massage and advanced hair-spa technology come together to maximise detoxification and ensure deep penetration of products. An expert blow-dry completes the journey.

DEEP SCALP DETOX

This detoxification treatment unclogs the scalp to improve oxygenation and cell renovation. A glycolic acid peel promotes renewal, followed by a carbon, clay and salicylic acid scrub to remove residue and toxins. A calming probiotic masque encourages a healthy microbiome, while a final density serum supports the vigorous growth of shiny hair.

ANTI-AGEING HAIR AND SCALP

Especially formulated for weak hair, this treatment promotes hair growth and density, soothes an itchy scalp, and restores hair elasticity. It facilitates collagen synthesis through specially formulated hair fillers that improve fibre fullness, hydration and structure.

RESTORATIVE HAIR AND SCALP

Designed to rejuvenate scalp health and restructure hair fibres, this treatment results in hair that is fuller and shinier. The scalp feels fresh, clean, nourished and hydrated. For long-lasting results, 4-6 treatments may be recommended.

SIGNATURE HAIR AND SCALP BEAUTY

A fully personalised treatment, expertly tailored to your unique hair and scalp requirements.
