## Snorkelling Lessons

Snorkelling is a safe and simple way to experience the spectacular marine life of the Maldives. Take advantage of our island's calm, warm lagoon to learn this skill. Our highly trained instructors will teach you the best breathing techniques and what to do if you get water inside your mask. By the end of this session, you'll feel more confident in the sea and ready for a snorkelling excursion!

## Windsurfing

Catch the wind and let it take you on an epic windsurfing adventure. Our experienced instructor teaches beginners how to keep their balance on the board while holding and steering the attached sail. Once you know the basics, it's easy to power across the lagoon. Experienced windsurfers with a license can head out on their own.

## Wind Wing

Fast, fun and perfect for use in almost all conditions, wind wings allow you to harness the power of the wind and transform any foil board or standard SUP into a completely new riding experience. There's no waiting around for perfect conditions, setup time is minimal and the learning curve is fairly gentle.

## Catamaran

Want to try your hand at sailing? Our small, lightweight catamaran is the perfect vessel for lessons – and the Maldives is the perfect place. Learn to handle lines and tillers, and how to keep the catamaran in balance. Experienced sailors with a license can rent a catamaran on their own. Optionally, join one of our sailing excursions with a skipper so you can sit back, relax and simply enjoy the breezy ride.

## Kitesurfing

Harness the power of the wind to glide across the surface of the sea and soar into the air. Join our short course to learn all you need to know about kitesurfing. Along with testing physical strength and endurance, this exhilarating water sport offers plenty of fun.

Speed is controlled via a handheld wireless remote control: with the click of a button, you can hover above the water. Our peaceful lagoon is the ideal setting to practise standing up and finding your balance on an efoil.

## Jet Ski

Jet-skis have been described before as aquatic motorbikes due to their high-power engines and the great speeds that they can reach. They also have handles similar to those of motorbikes and are steered in a similar manner. Choose to rent for 15 minutes, 30 minutes, 60 minutes per jet ski or an exciting snorkel safari for 120 minutes.

## Wakeboarding

Hold on to the towrope for a splashy adventure. Like in other board sports, the goal is to be able to stand up and keep your balance. If you've tried surfing or snowboarding, you can apply the same techniques to wakeboarding. In just a few tries, you'll find yourself "crossing the wake". Experienced wakeboarders can take this opportunity to practise new manoeuvres

## Kneeboarding

An easy introduction to the world of board sports. Kneeboarding has a much lower centre of gravity, so it's easier to keep your balance as you hold onto the towrope while a speedboat pulls you across the water. With just a little patience and practise, you'll be "threading along the wake" like a pro.

## Fun Toys and Banana Boat

Enjoy an exciting ride in our banana boat with family or friends. Have a splashing good time as our captain takes you around the lagoon on a thrilling journey, full of twists, turns and bounces. Since dolphins are wild and free in the Maldives, we cannot guarantee a sighting. However, our experienced captain and crew will take you to a great spot where dolphin pods are commonly sighted. If you're lucky, you might see several dolphins at the same time.

## Sunset Cruise

This excursion gives you the perfect opportunity to immerse in nature as you cruise across the ocean at sunset. Enjoy the sensation of the sea breeze on your skin just as the sunset sets.
