

ARLON

Colour Protection Film Series

Arlon's Colour Protection Film is a Thermoplastic Polyurethane (TPU) film that delivers the vibrant aesthetics of a color change wrap with the superior protection of a Paint Protection Film (PPF). Engineered with a proprietary dry-apply adhesive system, it ensures a clean, bubble-free installation, allowing professional vinyl wrap installers to easily apply the high-level protection film using their existing skills. This film provides a true paint-like finish, exceptional durability, and self-healing properties, all backed by a 5-year warranty.

Unique Features:

- **Dry-Apply Technology:** Proprietary adhesive system allows for dry installation, significantly reducing labor time and cost, and ensuring a clean, bubble-free finish.
- **Dual-Purpose Film:** Combines vibrant color change with superior paint protection, offering a high-value service to customers.
- **Extensive Colour Range:** Access to 100 standard colors (20 stocked in EU, 80 available for 1 roll orders with lead time).
- **Self-Healing Protection:** Advanced TPU/PU topcoat automatically repairs minor scratches and scuffs with heat, maintaining a flawless finish.
- **Ultra High Gloss:** Delivers a true paint-like finish that exceeds many conventional vinyl wraps.
- **5-Year Warranty:** Confidence in long-term performance, colour vibrancy, and protection.

Applications:

- Vehicle Colour Change and Protection (Full and Partial)
- High-End Automotive Customization
- Paint Protection for OEM and Repainted Surfaces
