

WE'RE JUST GETTING STARTED IN STAGS LEAP

THE LEGACY

We were the first to achieve a perfect 100-points from Robert Parker on an inaugural vintage.

SUSTAINABILITY

Our state-of-the-art winemaking facility is LEED (leadership in energy and environmental design) Gold Certified. In addition to 2,500 square feet of solar panels, we are one of just a handful of wineries with a living green roof and our winemaking laboratory, constructed from recycled shipping containers from China, is the only one of its kind in Napa Valley. Our estate vineyard is organically farmed and accredited CCOF (California Certified Organic Farmers).

SCREW CAPS

Proud producers of the first wine bottled under a screwcap to receive a perfect score of 100 points from Robert Parker's Wine Advocate.
