**SHELLEVIS®
SEATING ELEMENTS**

You'd like to create a unique spot to relax in? Schellevis® seating elements are ideal for both gardens and public outdoor space. This low-maintenance garden furniture is available in a variety of shapes, sizes and colours.

The seating elements have the well-known traditional Dutch appearance and typical Schellevis® structure on all sides. So they combine perfectly with other products in the Schellevis® range.

Combining the best of natural raw materials and colouring agents with a special production process and Dutch craftsmanship gives the seating elements a unique and timeless character. The Schellevis® seating elements feel right at home in a number of places: around the outside of the house, on the roof and in public outdoor spaces.

GUIDED BY NATURE

We believe it's important that an outdoor space is well-balanced and exudes tranquillity. Because in a living environment like that, you can relax; you're in your element, enjoying it. Whether alone or together with others. The outdoor space is the Schellevis® domain and nature is a major source of inspiration. We connect architecture with nature, with respect for the environment. That's how we contribute to a sustainable, natural experience of the outdoor space

Processing instructions

- The seating element (1000x600x400 mm) can stand on a separate, slightly smaller base (900x500x150 mm). This can be ordered separately.
- Dig the base in to adjust the height of the seating element and make it level horizontally. If necessary, fix the seating element with adhesive kit.
- The definite seat height is between 400 and 530 millimeters, depending on how deep the pedestal is in the ground.
